Groundbreaking!

Did you see us on the news? Mme Lainey's class joined Mr. Stephen Ortego of SO Studio Architecture with Mayor and Mrs. James, members of our school board, Mme Lindsay, and some other members of our staff for a special groundbreaking ceremony to commemorate the start of construction on our addition of new classrooms! Obviously we are very excited about the expansion of our campus, and Monsieur Ortego explained that the building has been designed in a way that will allow each class to have maximum sun exposition on one side for the installation of solar panels. This is very much in keeping with our dream of being a leading school not only in standard academics, not only in French immersion, but in every possible way including appreciation of all diversity, being run by women, and eco-awareness.

We want to thank you for growing with us, and congratulate you on being a part of this groundbreaking school, changing every expectation of what it means to be a public school in St. Landry Parish.

Perfect Attendance

We have received certificates for having over a 95% daily average attendance rate for August, September, November, December, January, and February so far. Here is a picture of Lilly, Valentina, Ophelia, Dazariah, and Lucas, who all have perfect attendance so far, holding our latest certificate.

March Mathness

We had a great turnout for our March Mathness Family Night. Thank you to all who attended. We hope you feel as inspired as we do by the numbers Mme Lindsay shared with you about our progress. Our students are so smart and doing so well! The results we shared are positive and impressive for any school, but remember that these are being achieved in French! This is just more proof that you made the right decision in sending your child to École Saint-Landry.

Garden Update

We have been learning about "le compostage" and students have been having fun watching our food waste break down with the help of worms and insects! We also read "Scribble Stones" and painted some stones with positive messages to decorate our garden.

Here, Honor and Sammy display their stones. Honor's says, "Tu est très beau" and Sammy's says, "Je suis fier de toi." On the right, Kamen and Nico work hard to turn the compost after the rain.
